

YOUR PRACTICE PARTNER

REMOTE PATIENT MONITORING (RPM) PROGRAM

1

Your Medicare Patients with Chronic or Acute Conditions May Qualify for RPM

Hypertension

Chronic Heart
Disease

Diabetes

Chronic
Kidney Disease

Pulmonary

2

Patient Engagement

InstaMD offers patient eligibility, patient training, device sourcing, and Medicare consent compliance.

3

New Revenue for your Practice

Patients' vitals are recorded by FDA approved devices. Each patient in the RPM Program must collect and transmit their vitals for at least **16 days out of a 30-day period** to qualify for Medicare reimbursement

4

Patient Data Reviewal and Connection

Clinical staff will review patients vitals data M-F, 9 am to 5 pm, and will connect with patients on a monthly basis
